

Yeow Kok Guan

FRESH GRADUATE

ABOUT ME

A fresh graduate from the School of Computer Science, Universiti Sains Malaysia (USM), recently completed the bachelor's degree in Computer Science. Actively seeking employment following my graduation, I am passionate about programming and designing applications, with a particular interest in intelligent computing. With my experiences in these fields, I always strive to learn a lot of professional skills in the future.

EXPERIENCE

SOFTWARE ENGINEER (WEB DEVELOPMENT) INTERN

Sophic Automation Sdn Bhd.

Mar 2023 – Sep 2023

- Developed a full-stack document management web system template using Nuxt.js for the front end, ASP.NET Core Web API (C#) for the back end, and SSMS for the database.
- Created comprehensive user manual documentation to facilitate smooth onboarding and system usage.
- Collaborated closely with team members to ensure timely and accurate implementation of system designs, contributing to a successful development phase.
